

“Transform Your Capacity To Successfully Navigate Life & Create New Resources To Make Healthier & More Effective Choices Using **The Integration Process™**”

Presenting the Embracing Change Experience Bali Tour

“Hello, my name is Dr Christian Pankhurst and I am the founder and head facilitator of Embracing Change. My organization offers profound personal development programs that provide the tools, training and experience you need to embrace change & take charge of your life. I have spent the last 10 years researching the most effective ways to develop, enrich and expand our experience as human beings. The result of this effort led to my creation of **The Integration Process™**, a powerful method of mind-body-spirit integration. I hope you will consider joining me and my team at an Embracing Change Experience in the near future”
